

FRIGIDAIRE

Model #: FCFI3083AS

Model #: FCFI3083AS

30" Front Control Induction Range with Convection Bake

The Frigidaire 30" Induction Front Control Freestanding with Convection Bake allows you to achieve consistent baking results, faster. Plus no cooktop is easier to clean than induction, since induction heats the pan and not the cooktop around it, spills wipe up more easily. Also, you can get dinner on the table faster with the induction cooktop, which boils water 50% faster than gas and electric.

Features:

- Unlike traditional electric and gas cooktops, induction only heats the pan and the food in it, so the area around the pan stays cooler to the touch, allowing you to clean up spills and splatters while you cook.
- Get faster, more even baking results with our fan convection baking system.
- Induction boils water 50% faster than gas or electric cooktops.
- Recipient of the 2024 Food Network Editor's Pick Award
- Recipient of the 2024 CNN Underscored Editor's Pick – Best Induction Range
- Connects two elements to create a larger cooking surface, perfect for a griddle or large pan.
- A convenient 3 hour self clean cycle cleans your oven so you don't have to.
- Induction delivers steady, even heat across the surface of your pan so you get consistent results every time.
- Induction heats your pan and the food in it, so the area around the pan stays cooler to the touch.
- Redesigned to be even wider - allowing you to store any unused oven racks, baking trays and more!
- Cook more at once with our extra large, 5.3 cu.ft. capacity oven.
- Lower heating elements are beneath the oven floor, making for a smooth surface that is easy to clean.
- We promise that your new 30" Frigidaire front control range will fit your existing range cutout of the same width and configuration, or we will reimburse you up to one hundred dollars for professionally modifying the countertop.
- Most stainless steel and cast iron cookware is compatible with induction elements. Rule of thumb: if a magnet sticks to the bottom of the cookware, it's induction-compatible.

**Stainless Steel
Dimensions**

Width: 30 in
Height: 36 3/8 in
Depth: 26 in

Specifications
