- Eliminates time wasted waiting on your oven to heat up - simply place your food in the cold oven and get to mealtime, in no time.
- Make healthier and delicious meals for your entire family - right in your oven.
- Designed to meet all of your cooking needs with a powerful 3,200-watt PowerPlus® Element, a 2-in-1 Dual Element, and a Keep Warm element.
- A light, 30-minute oven cleaning that's chemical-free, odor-free and fast.
- Your food cooks slowly and at a lower temperature (as low as 100° F), allowing you to lock in moisture and flavor without over or undercooking your food.
- Air Sous Vide cooking uses precisely controlled temperature and airflow to lock in flavor and moisture to cook foods to the finish temperature you want.
- The 3,200-watt PowerPlus® Element brings water to a boil faster, while EvenTemp™ technology helps create consistently delicious meals.
- Steam evenly circulates throughout the oven cavity, resulting in breads and muffins that rise higher and are light and fluffy.
- Steam Roast uses moisture to make perfectly crispy and tender meats and vegetables that are roasted to perfection.
- Our redesigned Store-More™ Storage drawer is now even wider - allowing you to store any unused oven racks or baking trays.
- Cook more at once with 5.3 cu.ft of oven capacity.
