- Eliminates time wasted waiting on your oven to heat up - simply place your food in the cold oven and get to meal time, in no time.
- Make healthier and delicious meals for your entire family - right in your oven.
- This cooktop has five elements designed to handle all of your cooking needs, including our powerful 18k BTU Quick Boil Burner and center oval burner - perfect for griddles.
- Your food cooks slowly and at a lower temperature (as low as 100° F), allowing you to lock in moisture and flavor without over or undercooking your food.
- Air Sous Vide cooking uses precisely controlled temperature and airflow to lock in flavor and moisture to cook foods to the finish temperature you want.
- A light, 30-minute oven cleaning that's chemical-free, odor-free and fast.
- Experience faster boil times and more powerful cooking with the 18,000 BTU burner.
- With Steam Bake, steam evenly circulates throughout the oven cavity, resulting in breads and muffins that rise higher and are light and fluffy.
- Steam Roast uses moisture to make perfectly crispy and tender meats and vegetables that are roasted to perfection.
- Cook more at once with 5.1 cu.ft of oven capacity.
- Our redesigned Store-More™ Storage drawer is now even wider - allowing you to store any unused oven racks or baking trays.
- Resists fingerprints and cleans easily.
