- Eliminates time wasted waiting on your oven to heat up - simply place your food in the cold oven and get to meal time, in no time.
- Make healthier and delicious meals for your entire family - right in your oven.
- With Slow Cook, your food cooks slowly and at a lower temperature (as low as 100° F), allowing you to lock in moisture and flavor without over or undercooking your food.
- With Steam Bake, steam evenly circulates throughout the oven cavity, resulting in breads and muffins that rise higher and are light and fluffy.
- Monitors and alerts when the desired finished cooking temperature has been reached.
- We promise that your new 30" Frigidaire® Gallery double wall oven will fit your existing cabinet cutout of the same width and configuration, or we will reimburse you up to \$300 for cabinet modification costs.
- Enjoy more cleaning flexibility. Select Steam Clean for a quick, 30 minute clean or choose Self Clean, which is available in 2, 3 and 4 hour cycles.
- Steam Roast uses moisture to make perfectly crispy and tender meats and vegetables that are roasted to perfection.
- Features a responsive 4.3 inch, full color, capacitive touch digital control panel.
- Uses precisely-controlled temperature and airflow to lock in flavor and moisture to cook foods to the finish temperature you want.
- Our extending Glide Rack makes it easier to monitor and lift your food out of the oven.
- Cook more at once with a combined 10.6 cu.ft. of oven capacity.
- Resists fingerprints and cleans easily.
- Optional ReadyCook™ Air Fry Tray allows you to achieve perfectly crispy and delicious results.
