- Power boil burner: This 18,000-BTU power boil element produces intense heat to boil water fast
- Precise Simmer Burner: This burner setting provides low, even heat so delicate dishes don't burn
- Convection: This gas convection oven cooks and browns more evenly, using a rear fan to circulate hot air
- Self-clean with steam clean: This self-cleaning oven uses optional steam cleaning for light soils to clean the oven cavity with less heat and odor
- Center oval burner: This center oval burner gives you a fifth burner and the perfect place to use griddles or odd-size cookware
- Heavy duty, dishwasher-safe grates: These cooktop grates can be cleaned one of two ways – either in the dishwasher, or on the bottom of a self-clean oven

- Removable storage drawer: A full-width drawer provides space for kitchen accessory and cookware storage for added convenience in the kitchen
