Model #: KBSN742SBE

Model #: KBSN742SBE

25.5 Cu. Ft. 42-Inch Built-In Side-by-Side Refrigerator with Signature Platinum Interior in Black Ore

This Built-In Side-by-Side Refrigerator enhances your space with elevated styles and option to upgrade with customizable hardware. Multiple Installation Options allow you to choose between flush installation for an integrated look or proud for a prominent look. Signature Platinum Interior wows with wood-look trim and metallic accents, while the Under-Shelf Prep Zone utilizes unused space with included cake pan, designed to go directly from the refrigerator to the oven to the dishwasher.

Features:

- Designed to be Personalized: with a curated palette of exterior finishes and mixed metal hardware. Pick from lush Juniper, warm Black Ore and classic Stainless Steel finishes, all with matching handles. Personalize your hardware with optional handle accessory kits in Brass, Bronze, Black Ore and Stainless Steel.
- Multiple Installation Options: allow you to choose the installation style that fits your aesthetic: flush for a seamless look, overlay for a softly striking incorporated look or proud for a standout presence.
- Under-Shelf Prep Zone: utilizes unused space with included cake pan. Go directly from the refrigerator to the oven to the dishwasher. Ideal for storing food prep or leftovers, marinating, chilling desserts, making focaccia and more.
- Preserva® Food Care System: helps keep ingredients fresh and flavorful. This single evaporator system uses sensors to continually monitor temperature levels in both the refrigerator and freezer and adapts the flow of cold air between them to maintain optimal temperatures throughout.
- Soft Self-Close Doors: ensure doors close quietly and gently, helping to prevent slamming. Additionally, it enhances your cooking experience by automatically closing doors when left slightly ajar.
- FreshChill™ Temperature-Controlled Drawer: makes it easy to customize storage temperatures for different types of ingredients, helping to maintain freshness. Simply turn the dial to choose from presets for Meat, Produce, Deli and Assorted Items.
- Wood-Look Finish Sliding Storage Tray: keeps serving platters and ingredients easily accessible. The tray removes fully for easy cleaning.
- Signature Platinum Interior: wows from the inside out with premium craftsmanship and design. Wood-look trim, metallic touchpoints, smoked crisper bins and ultra-bright LED lighting pop against the stunning silver-colored finish.
- SatinGlide® Drawer System: adds a smooth experience to the crisper drawers. Ball-bearing rollers enhance the opening and closing experience every time, whether it is nearly empty or fully loaded.
- Adjustable Spill-Resistant Glass Shelves: feature premium glass, offering edge-to-edge storage for whatever you need. Plus, the nano-etched edges help prevent spills from overflowing into other parts of your refrigerator, and the design allows you to remove them for easy cleaning.
- Personalized Door Stop: tailors your refrigerator to suit your space by setting the door to stop at 90°, 110° or 130°. This prevents the door from swinging open too wide, giving you the flexibility to load or find ingredients without hitting counters or handles.
- FreshFlow™ Air Filter: deodorizes 15x better than baking soda. The replaceable carbon-based filter neutralizes common food odors for up to 6 months.
- Automatic Ice Maker: ensures that you have a continuous supply of fresh, filtered ice for entertaining or everyday beverages and creations.
- Ultra-Bright LED Lighting: gradually brightens to fully illuminate the freezer and refrigerator, making it easy to find what you need.
- Max Cool: lets you use the touch of a button to drop refrigerator temperature to the coldest level, helping to chill groceries, beverages or ingredients for serving. After 24 hours, the temperature will automatically be restored to the previous setting.
- Max Freeze: lets you use the touch of a button to drop freezer temperature to coldest level (-8°F), so frozen goods can reach optimal temperatures. After 48 hours, the temperature will automatically be restored to the previous setting.
