Model #: KDTF924PPA

KitchenAid® 39 dBA Panel-Ready Flush-to-cabinet Dishwasher with FreeFlex™ Fit Third Level Rack

This KitchenAid® Flush Dishwasher turns dirty work into something beautiful. FreeFlex™ Fit Third Rack has a deep, angled design and paired with the adjustable middle rack, there is 30% more capacity than KitchenAid® two-rack dishwashers. Automatic Door-Open Dry System circulates fresh air for enhanced drying power. And Panel-Ready Design lets you match your cabinetry for a completely seamless look.

Features:

- Flush Design: Allows dishwasher to fit evenly with countertops and cabinetry to help give the kitchen a seamless look and feel.
- FreeFlex™ Fit Third Level Rack: Deep angled design fits 5" glasses, mugs and bowls, allowing 30% more capacity.* It features designated wash jets to clean items in the rack and a removable utensil tray with specialized coating that helps repel water for fast drying. *Compared to KitchenAid® Two-Rack Dishwashers.
- Door-Open Dry System: Automatically opens after the cycle to allow hot air out and fresh air to circulate within, making it KitchenAid brand's most energy efficient dry system*.
- Triple Filtration System: Uses three levels of filtration to remove food particles during the wash and rinse cycles. This ensures clean water circulates through the wash arms and onto dishes, even with dirty cookware.
- Wash Cycle Countdown: Conveniently projects an easily readable LED countdown below the dishwasher onto the floor, so you always know the status of the cycle and how much time is left. When illumination disappears, wash is complete.
- Panel-Ready Design: Allows you to install a custom front panel and handle over the dishwasher door, helping to create a seamless, custom look with kitchen cabinetry.*
- Leak Identification System: Helps detect most types of leaks and includes a drip tray underneath. If the system detects a problem, the dishwasher can stop filling, drain the tub and alert that service is needed.*
- ProWash™ Cycle: Uses sensors to measure soil levels throughout the cycle and adapts wash time and water temperature as needed for tough messes or lighter loads, because no two meals or the dishes that result are exactly the same.
- Integrated Water Softener: Helps in preventing scale buildup and water streaks in homes without soft water systems. Self-regenerating salt system should be activated upon installation if desired.* *Do not activate if water softening system already in use. Salt sold separately.
- Pre-Rinse Option: Helps overcome the need to hand rinse before loading the dishwasher by washing away small easy-to-remove soils for optimized cleaning performance during the main wash cycle.
- 14 Place Settings: Fit in the dishwasher all at once with two full levels of adjustable rack space that make room for your pots, pans, glassware and plates. Easily clean whatever you cook up, from prep to party.
- 39 dBA: Provides quiet cleaning without compromising performance, so there's no need to wait to run a wash cycle while entertaining and enjoying meals, even in open concept kitchens.
- Interior LED Lighting System: Illuminates inside the dishwasher when the door is open, allowing clearer visibility for easy loading and unloading.
- Extended Dry Option: Extends the drying cycle for loads that need extra drying performance by adding a hot rinse to the final cycle.
- SatinGlide® Rails in Third and Middle Racks: Move smoothly on ball-bearing glides for easy loading and unloading.
- Durable Stainless Steel Interior: Offers the beauty and benefits of stainless steel inside the dishwasher. It resists streaks, stains and odors, while retaining heat to help improve drying.
- Adjustable Rows in Middle and Lower Racks: Fold down to make room for dishes in a variety of shapes and sizes like roasting pans, serving bowls, colanders and dutch ovens.
- 2 Fold-Down Stemware Holders: Secure wine glasses along the side of the middle rack to prevent them from moving around during the wash cycle. The space on top of the shelf also accommodates small cups or longer items like utensils and spatulas.

Panel Ready Dimensions

Width: 23.5625 in
Height: 32.3125 in
Depth: 22.625 in

Dan's Appliance

- Top Controls with Countdown Projection: Are tucked away on top of the dishwasher door for a clean look to match your kitchen style. LED projection on the floor subtly displays cycle progress.
- Adjustable Middle Rack: Adds flexibility to fit tall items like a stand mixer bowl. Lower the rack to place large dishes inside or raise it to make room for platters, pitchers, blender jars and more in the rack below.
- ADA Compliant (US Only): This dishwasher meets the Standards for Accessible Design specified by the Americans with Disabilities Act to provide equal access to all. (US Only)
- Energy Star® Certified: To exceed government standards for energy efficiency, supporting sustainability and helping to save money on utility bills.
- Enhanced Dry Coating: Specialized coating on the third level utensil caddy helps wick water away for a better utensil drying performance
