Model #: KDTS624SPS

KitchenAid® 360° Max Jets™ Third Rack Dishwasher with Advanced ProDry™ System, 44 dBA

Say hello to the only way to dish. This top control dishwasher with a towel bar handle has 50+ Total Wash Jets across 5 wash arms that offer targeted cleaning on every level. 360° Max Jets™ Third Rack uses 360° wash jets to clean glasses, mugs and bowls. 7.25 cu. ft. MaxTub Largest Dishwasher Tub based on usable volume. Advanced ProDry™ System serves up KitchenAid brand's driest dry.* True Self-Cleaning Filtration eliminates manual filter cleaning by continuously circulating clean water during wash and rinse cycles.

**PrintShield Stainless
Dimensions**

Width: 23.9375 in
Height: 33.625 in
Depth: 26.75 in

Features:

- 50+ Total Wash Jets: provide complete cleaning coverage for dishes across all three racks, eliminating the need for pre-rinsing. With 3x more jets* than the leading competitor's third rack model, it ensures targeted cleaning for dishes on every level. *Compared to Bosch SHX9PCM5N
- 360° Max Jets™ Third Rack: is the only third rack with 360° wash jets to clean pint glasses, coffee mugs and cereal bowls inside and out. The largest third rack available,* it also has a removable utensil caddy for cooking tools and features moisture-wicking tines for table-ready dishes. *Among leading brands based on usable volume.
- 7.25 cu. ft. MaxTub Largest Dishwasher Tub* *Based on usable volume.: makes room for the 360° Max Jets™ Third Rack, which fits 10 extra glasses and mugs,* freeing up space for larger items below. Stemware holders in the adjustable middle rack secure wine glasses. And fold-down rows in the lower rack accommodate cookware of various shapes and sizes. *Compared to KDFS224S and KDTS224S models
- Advanced ProDry™ System: gets dishes table-ready by combining heating elements, fans and natural ventilation at the end of the cycle for KitchenAid brand's driest dry*. To activate, select the ProDry™ Option or ProDry™ Max Option.
- True Self-Cleaning Filtration: is the only dishwasher filtration system* available that eliminates the need for manual filter cleaning. It continuously captures food particles, so only clean water circulates through the wash jets, then cleans itself as the dishwasher drains, so you can load without pre-rinsing. *Across brands owned by Whirlpool Corporation, including Maytag and Whirlpool
- Designed To Be Personalized: with a curated palette of exterior finishes and mixed metal hardware. Pick from lush Juniper, warm Black Ore and classic Stainless Steel finishes, all with matching handles. Personalize your hardware with optional handle accessory kits in Brass, Bronze, Black Ore and Stainless Steel.
- Designed for Quiet Cleaning at 44 dBA: so you can let the dishwasher get a head start on cleanup while you entertain and enjoy meals, even in open-concept kitchens.
- Express Wash Cycle: cleans 72% better than the leading competitor's Speed 60 cycle.* Dishes get a thorough wash in just over an hour, so you always have what you need while prepping, cooking and entertaining. *Compared to Bosch SHX9PCM5N.
- ProWash™ Cycle: uses a sensor to measure soil levels and adapts wash time and water temperature as needed for tough messes or lighter loads, because no two meals are exactly the same.
- 90-Minute Normal Cycle: cleans 40% faster than the average normal cycle,* so you can keep up with cleanup while hosting. This cycle washes and dries in just 90 minutes, so cooking tools and serveware are always ready when you need them. *Compared to KitchenAid® 2 Series and 3 Series models.
- PrintShield™ Finish: resists smudges and fingerprints. The specialized coating for stainless steel is easy to clean with just water and a soft cloth, so you can spend more time cooking and less time cleaning up the kitchen.
- Automatic Door Open Dry System: opens door 4" after the dry cycle ends to release water vapor and provide natural ventilation for an exceptional dry. Use the Automatic Door Open Dry System alone for our most energy-efficient dry* or pair with ProDry™ option for improved drying performance. *Compared to KitchenAid® Dishwashers when using ProDry™ Option.
- Water Repellent Tech: repels leftover water droplets on silverware basket to

help utensils dry.

- ProDry™ Max Option: extends the ProDry™ Cycle for loads that need extra time to provide better drying results*
- Durable Stainless Steel Interior: offers the beauty and benefits of stainless steel inside the dishwasher, plus helps resist streaks, stains and odors, while retaining heat to help improve drying.
- Stemware Shield: provides a dedicated zone with 4 stemware holders to protect wine glasses, champagne flutes and cocktail glasses from tipping over during wash cycles.
- SatinGlide® Rails in Third and Middle Racks: move smoothly for easy loading and unloading.
- Adjustable Middle Rack: adds flexibility to fit tall items like a stand mixer bowl. Lower the rack to place large dishes inside or raise it to make room for platters, pitchers, blender jars and more in the rack below.
- Adjustable Rows in Middle and Lower Racks: tines easily fold down to make room for dishes in a variety of shapes and sizes like roasting pans, serving bowls, colanders and dutch ovens.
- Lower Rack Sliding Tines: can easily be adjusted for ideal loading of pots and pans or uniquely shaped dishware.
- Sani-Rinse Option: eliminates 99.999% of food soil bacteria by adding a high-heat final rinse to sanitize dishes.
- Customizable Handles: let you create a product palette aligned to your kitchen aesthetic. Choose from PrintShield™ Finish Stainless Steel, Juniper, or Black Ore appliance colors and make it yours with customizable touchpoints. Personalized kits are available online to customize handles.
- Top Controls: are tucked away on top of the dishwasher door for a clean look to match your kitchen style. An indicator light on the front of the door changes colors to subtly display cycle progress.
- 5 Cycles: provide flexibility so you can adapt to any pile up of plates with a quick wash cycle, heavy wash cycle and more.
- Leak Identification System: Helps detect most types of leaks and includes a drip tray underneath. If the system detects a problem, the dishwasher can stop filling, drain the tub and alert that service is needed.*
- Eco Series: Designed with efficiency in mind. Saving you water, energy and money with quality wash and dry performance. *Compared to dishwashers meeting the minimum 2023 Department of Energy efficiency standards
