- Steam Clean & Self-Cleaning Cycles: keep your oven clean with two distinct cycles. The Steam Clean Cycle, perfect for quick, routine maintenance, helps loosen cooked-on food in under an hour. Simply add water to the bottom of the oven and wipe down after the cycle. For a deeper clean, the high-temperature Self-Clean Cycle powers through baked-on spills, leaving the oven cavity clean with just a final wipe-down.

- PrintShield™ Finish: Resists smudges and fingerprints. The specialized coating for stainless steel is easy to clean with just water and a soft cloth, so you can spend more time cooking and less time cleaning up.
