Model #: KUBL524SJP

Model #: KUBL524SJP

4.8 Cu. Ft. 24-Inch Beverage Center with 14-Wine Bottle Capacity and Wood-Front Racks in Juniper

This 24" Undercounter Beverage Center with Full-Extension Wood-Front Racks stores 14 wine bottles below with room for drinks and food on the full-width shelves above. Two Temperature-Controlled Zones adjust for what you're storing, and a Temperature Monitoring System with sensor alert adds peace of mind. Fully Flush Installation with Hidden Hinges provides a built-in look within cabinetry.

Features:

- Designed to be Personalized: with a curated palette of exterior finishes and mixed metal hardware. Pick from lush Juniper, warm Black Ore and classic Stainless Steel finishes, all with matching handles. Personalize your hardware with optional handle accessory kits in Brass, Bronze, Black Ore and Stainless Steel.
- Fully Flush Installation with Hidden Hinges: provides a built-in look within a standard 24" base cabinet, so the beverage center seamlessly blends in, letting your style stand out. Hidden hinges allow the beverage center door to sit flush with surrounding cabinet fronts when closed yet easily swing open a full 115°.
- Two Temperature-Controlled Zones: allow you to chill red and white wines between 42–64°F in the lower zone and keep sodas, seltzers and craft brews at colder temperatures in the upper zone, which adjusts from a low of 33°F for cold drinks up to 40°F for cheese and charcuterie.
- Motion-Activated LED Lighting: turns on inside as you approach, so you can see what's inside without opening the door. Lights will gradually dim and turn off when not in use.
- Temperature Monitoring System: uses sensors to monitor temperatures inside the beverage center for added peace of mind. If the system detects temperatures above 70°F for more than 4 hours, an over-temp alarm and indicator light will alert you that service is needed.
- SatinGlide® Full-Extension Wood-Front Racks: pull all the way out, making it easy to restock bottles and find just the one you want when serving. Wood fronts let you coordinate with your home decor.
- Backlit Touch Controls: make it easy to choose settings for what you're storing. Located on the divider between the two temperature zones, the lighted control panel displays current temperatures for each zone and other status alerts.
- 4.8 Cu. Ft. Capacity: features two lower racks for up to 14 bottles of wine and two full-width upper shelves for drinks and food. Now you can store sodas, seltzers and syrups along with cheese plates and charcuterie boards.
- Door Alarm: alerts you if the door has been left open for five minutes or more and repeats every two minutes until you close the door or touch the controls.
- Glass Shelves: bring distinctive style inside with a solid glass shelf design that makes it easy to wipe up spills.
- UV-Protected Thermal Glass Door: filters UV rays to protect your favorite beverages from the damaging effects of heat and light.
- Sabbath Mode (Star-K Certified): disables automatic lights and alarm tones to meet kosher requirements for use on the Jewish Sabbath and other religious holidays.
