Model #: PCFI3080AF

30" Induction Range with Total Convection

The Frigidaire Professional 30" Front Control Induction Range features our most powerful and advanced convection system, Total Convection, which enables cooking modes like No Preheat, Air Fry, Slow Cook, Steam Bake, Steam Roast, Convection Bake and more! Enjoy the cleanability and amazingly fast speed of cooking with induction. Also includes a convenient Temperature Probe, Air Fry Tray, Backlit LED knobs, Glide Rack and features our fingerprint resistant, Smudge-Proof® Stainless Steel finish.

Features:

- Gives you maximum versatility in the kitchen, powering cooking modes like Air Fry, No Preheat, Slow Cook, Convection Bake, Steam Bake, Convection Roast, Steam Roast and more!
- Unlike traditional electric and gas cooktops, Induction only heats the pan and the food in it, so the area around the pan stays cooler, allowing you to clean up spills and splatters while you cook.
- Eliminates time wasted waiting on your oven to heat up - simply place your food in the cold oven and get to meal time, in no time.
- Make healthier and delicious meals for your entire family - right in your oven.
- For perfectly crispy and delicious Air Fry results.
- With Slow Cook, your food cooks slowly and at a lower temperature (as low as 100° F), allowing you to lock in moisture and flavor without over or undercooking your food.
- With induction, heat transfers directly to the cookware bypassing the cooktop surface, making induction incredibly fast.
- Monitors and alerts when the desired finished cooking temperature has been reached.
- With Steam Bake, steam evenly circulates throughout the oven cavity, resulting in breads and muffins that rise higher and are light and fluffy.
- Sensors in the cooktop automatically adjust the power level to maintain a consistent temperature the entire time you cook - it's like cruise control for your cooktop
- Connects two elements to allow for simultaneous control, perfect for a griddle pan.
- Select Steam Clean for a quick, 30 minute clean or choose Self Clean, which is available in 2, 3 and 4 hour cycles.
- Backlit LED knobs look great and provide visual heat awareness. White glows while cooking. Red glows after shutoff while the surface remains hot.
- Our extending Glide Rack makes it easier to monitor and lift your food out of the oven.
- Induction only heats the pan and the food in it, so the area around the pan stays cooler.
- Redesigned to be even wider - allowing you to store any unused oven racks, baking trays and more!
- Resists fingerprints and cleans easily.
- We promise that your new 30" Frigidaire front control range will fit your existing range cutout of the same width and configuration, or we will reimburse you up to one hundred dollars for professionally modifying the countertop.
