Model #: WEF5727TW

Smart ENERGY STAR® Front Load Laundry Tower with UV Clean Technology & FreshFlow™ Vent System 4.5 cu. ft. Washer & 7.4 cu. ft. Electric Dryer

This single-unit front load laundry tower features easy-to-reach controls and the FreshFlow™ Vent System with Industry-First UV Clean. Keep your clothes and washer fresh, now with the added benefit of UV light technology that reduces bacteria in the wash without requiring high temps or fading fabrics. Simplify your laundry routine with intelligent wash and dry technology that senses and makes automatic adjustments for ideal cleaning performance and to prevent clothes from overdrying.

Features:

- **UV Clean Technology:** Industry-first UV Clean Technology reduces bacteria* in the wash without requiring high temperatures or fading fabrics. When selected, a bright blue light signals the UV technology is working to tackle the bacteria in the water, giving your clothes a deep clean while keeping fabric care in mind.
- **FreshFlow™ Vent System:** The FreshFlow™ Vent System, now with UV Clean Technology, keeps your clothes and machine fresh and clean. It includes the Dry Drum Cycle, FanFresh® Option, Antimicrobial protection, and industry-first UV Clean Technology.
- **Intelligent Wash & Dry:** Intelligent Wash & Dry technology uses sensors in the washer to detect load size and fabric type, automatically adjusting water level, temperature, and wash action for ideal fabric care and cleaning performance. Then sensors in the dryer detect moisture and temperature to adjust dry time to help prevent overdrying.
- **Handwash Cycle:** Gently loosen soils in delicate items that need a little extra care with the Handwash Cycle. Choose your preferred water temperature and soil level, then gentle agitation mimics handwashing to soak away stains while helping maintain the shape and size of your fabrics.
- **Front Load Laundry Tower:** Save space and easily reach the centralized control panel with a front load laundry tower configuration
- **Smart Features with Whirlpool® App:** Be in control and stay connected from anywhere. The Whirlpool® App lets you start, pause, track progress and receive notifications when you're away, so you can manage laundry day right from your smartphone.*
- **Finish Laundry in Under an Hour:** Finish laundry in under 1 hour by pairing the 25 minute Quick Wash cycle with a 30 minute timed dry.* Experience the ultimate time-saving duo for hassle-free laundry days.
- **Antimicrobial Protection:** Antimicrobial protection on the rubber seal helps keep your washer fresh by preventing the growth of odor-causing bacteria and mold.
- **FanFresh® Option:** Keep your clothes fresh in the washer after a cycle. The FanFresh® Option uses a built-in fan and periodic tumbling to keep your just-washed clothes fresh until they're ready for the dryer, using less energy than you would re-washing your clothes.*
- **Dry Drum Cycle:** After you take the clothes out, close your washer door and select the Dry Drum Cycle. A powerful fan reduces excess moisture from the drum, rubber gasket and door.
- **Pump Access:** Easily access the drain pump for more convenient cleaning and maintenance.
- **Wrinkle Shield™ Option:** Help keep wrinkles from setting into clean, dry laundry with the Wrinkle Shield™ Option. It keeps clothes tumbling for up to 150 minutes after the cycle ends, or until you open the door.
- **ENERGY STAR® Certified:** ENERGY STAR® certified models exceed government standards to help conserve natural resources and save money on your utility bills.
- **33" Closet-Depth Fit:** Get a space-saving design with closet-depth fit that allows for more flexible installation in your laundry space.*
- **An American Company for Over 100 Years:** Whirlpool Corporation started in 1911 as a small company in Benton Harbor, Michigan. Today we are a global home appliance business selling products around the world. We are proud of our American heritage and ingenuity that have driven innovation for over 100 years
