16 cu. ft. Upright Freezer with Frost-Free Defrost

Put a spotlight on your frozen favorites inside this 16 cu. ft. upright freezer with LED interior lighting. Activating Fast Freeze quickly drops the temperature to help lock in freshness and flavor, and the temperature alarm will notify you if your food gets too warm. This upright freezer prevents frost build-up for a hassle-free defrosting experience with frost-free defrost. Plus, you can choose the ideal temperature for whatever frozen foods you're storing with electronic temperature controls, and you can be sure there is plenty of ice on hand with the optional icemaker

Features:

- LED Interior Lighting: LED interior lighting is longer-lasting and uses less energy than incandescent lighting. Plus, it casts a bright light on the contents of your refrigerator so food looks as it should.
- Fast Freeze: The Fast Freeze Option helps you chill large amounts of food fast at just the push of a button. How it works: This option freezes large amounts of food fast, by driving freezer temps 10 degrees colder than the lowest setting.
- Electronic Temperature Control: Convenient, up-front electronic temperature controls let you choose the ideal temperature for whatever frozen foods you're storing.
- Temperature Alarm: A temperature alarm notifies you when the freezer's temperature rises to help you monitor the ideal environment for your frozen foods.
- Frost-Free Defrost: Frost-free defrost automatically prevents frost build-up, so you'll never have to empty the freezer for a manual defrost again.
- Optional Ice Maker Kit: Forget the ice trays. With the optional icemaker available on all Amana® top-freezer refrigerators, you can enjoy cold, refreshing beverages like smoothies and iced tea.
- Optional Icemaker: An optional icemaker makes sure there is plenty of ice on hand.
